

# Go Green. Save Green.

Our new Green Auto Loan option is easy on the environment and on your wallet.

As part of our commitment to protecting the environment through green initiatives, the Credit Union is pleased to announce the Green Auto Loan.

When you finance a vehicle that gets at least 30 miles-per-gallon highway, you will receive a .25% reduction to the great low rate you would otherwise receive.

The model year of the car must not be more than 2 years prior to the current calendar year. Gas mileage is based on the Official EPA MPG as stated on [www.fueleconomy.gov](http://www.fueleconomy.gov).
